About

Hello, I'm Dennie, Deep Thinking Product Manager!

A self-motivated and driven person, excellent team player, passionate about creating modern, clean and user-friendly experiences for customers. Focused on understanding and meeting customer's and clients goals, objectives.

Area of expertise

6+ years of product design and management

Prior product design has four years in the marketing field and two years in the sales field

Experience

May 2017 - November 2017

Program Manager at Audyssey Laboratories.

As Program Manager in Kiev office made it easy to coordinate the efforts of a large R&D team that located overseas. Managed deliverables and worked through different time-zones to make sure that projects move forward and milestones met.

March 2016 - April 2017

Product Manager at ShipShape Smart Homes

My contribute here was so wide: from helping company management create and execute a roadmap to creating trendy look and feel of the application and product packaging. Scrum meetings, planning, retrospectives - all this helps us move quickly from early-stage startup to successful company.

December 2014 - January 2016

Product Designer at www.chatbox.com

Here I started my way as the Product designer. Helped our management find and deliver core product features in the short term. Working with management, sales and developer teams on a shorthand have helped us to obtain investments, create excellent experiences for customer support teams, and get first big customers on board.

March 2014 - till now

From Mid to Senior UI/UX Designer at Blue Stout

Helped to grow this company from a small agency into a big e-commerce brand. Here I build some great e-commerce experiences for the great and well-known retailers, established company design/development flow, mentored junior designers.

June 2014 - December 2014

Senior UI/UX Designer at Bilberry Software

While working in Bilberry, I bring my value as Senior UI/UX Designer and give some fresh air to our clients like Chipotle, Reviews.com, Chatbox. Helped to hire few great designers on board, after I was transferred to our client - Chatbox.

2012 - 2014

UI - UX Designer Freelance

Started my career on well known freelance resources, obtain a lot of customers and exciting projects, was at Top 5% designers. Here I learned a lot about remote working, time management and other skills helping me every day.
